June Is National Healthy Homes Month

The U.S. Environmental Protection Agency (EPA) joins the [U.S. Department of Housing and Urban Development](#) (HUD) in recognizing June as National Healthy Homes Month.

Take this opportunity to learn about the relationship between indoor air, housing and health. Check out the [resources](#) available to advocates of healthy housing.

[EPA's Indoor Environments Division](#) shares HUD's goal of ensuring healthy homes by maintaining healthy indoor air. The following strategies will help to maintain and improve your home's indoor air quality (IAQ):

You can improve your home's air quality by [using "green" cleaning products](#), [not smoking indoors](#), [testing your home for radon](#) and [upgrading your heating and cooling systems](#) to be cleaner and more energy efficient, among many [other actions](#).
