Air Monitoring Notes: The VOC Alert Level exceedance at 11:15 at O-1 was due to humidity buildup in the PID. The misreading was confirmed to be false by using a handheld PID. The PID sensor and bulb were cleaned. Readings returned to below Alert Levels. No other exceedances occurred.

Weather Notes: Cloudy and cool in the AM with some precipitation. Sunny and warm in the PM.

Notes:

Not To Scale
 Air monitoring stations O-1 through O-3 will be placed based on actual sustained wind direction and adjusted throughout the day if sustained wind direction changes.
 The location of the air monitoring station shown as O-4 is approximate.
